

Waste sorting and waste collection

How does it work?

Apartment buildings

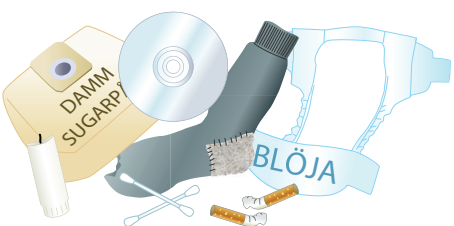

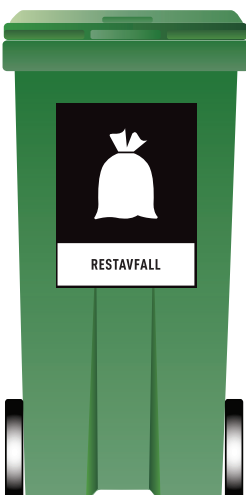

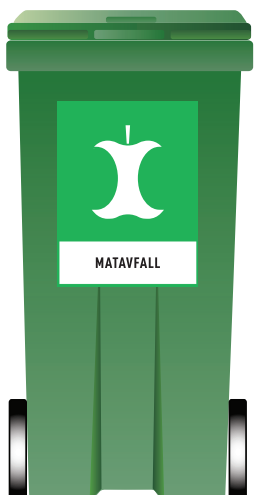

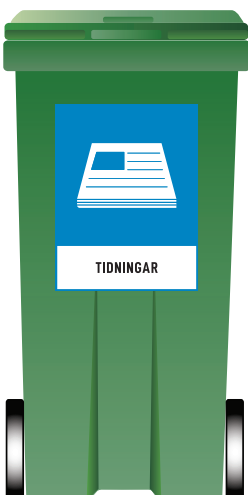

Osby and Östra Göinge

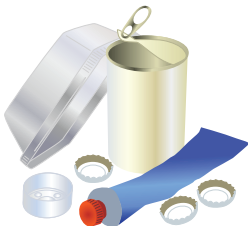

WORKING FOR A CLEANER WORLD

**Your local waste
management
partner**
in the Göinge District

THIS IS HOW YOU :

RESIDUAL WASTE	FOOD WASTE	PORCELAIN & CERAMICS	NEWSPAPERS
Packaged	Well-packed in compost bags	Placed loose in the bin	Placed loose in the bin
  RESIDUAL WASTE Nappies/diapers, sanitary towels, household utensils, washing-up brushes, CDs, cotton buds, envelopes, books, vacuum cleaner bags, cigarette ends, chewing gum, face-cloths, baby wipes, kitchen towels, napkins, ash, soot, cat sand, pet waste bags, etc.	  FOOD WASTE Egg shells and potato peelings, fish remains, fruit and vegetable waste, coffee grounds, coffee filters, tea leaves, food waste from meat, fish, poultry, potatoes, vegetables, bread, cheese, cakes, etc.	  PORECELAIN & CERAMICS, METAL Porcelain, ceramics, glass items, mirrors, clay pots, marked PVC plastic, etc. Pots, pans, tools, razor blades, steel wool, etc.	  NEWSPAPERS Newspapers, circulars, magazines, computer and writing paper, brochures, paperback books, advertising leaflets, catalogues, etc. Heavily soiled paper and all envelopes must be placed in the bin for residual waste.
Residual waste is incinerated in heating plants to provide energy-efficient district heating.	FOOD WASTE is processed in an approved facility to produce biogas for use in vehicles and biofertilizer for agriculture.	Porcelain & ceramics is waste that cannot be reused, recovered, recycled or incinerated. It must therefore be disposed of at a landfill site. Metal fractions are separated by magnets and recycled.	NEWSPAPERS are recycled and turned into new paper products.

SORT YOUR WASTE

PLASTIC PACKAGING	PAPER PACKAGING	METAL PACKAGING	GLASS PACKAGING	
Placed loose in the bin	Folded and placed loose in the bin	Placed loose in the bin	Placed loose in the bin	Placed loose in the bin
Plastic or paper? Check the package to find out.				
				
				
PLASTIC PACKAGING Shampoo bottles, drinks bottles, ketchup bottles, plastic containers for dairy products, desserts, etc., disposable plastic mugs and plates, plastic bags, plastic foil, plastic sacks, etc. Extruded polystyrene used for packaging, and other packaging consisting of at least 50% plastic.	PAPER PACKAGING Milk cartons, juice cartons, sugar and flour bags, washing powder boxes, cornflakes boxes, pizza and cake cartons, wrapping paper, freezer cartons, chocolate boxes, egg boxes, paper mugs, cardboard tubes from kitchen/toilet rolls and other packaging containing at least 50% paper. Corrugated cardboard (small amount)	METAL PACKAGING Tins, cans, lids, metal tubes, aluminium foil, bottle tops, tealight holders Tins and cans take up less space if they are opened at both ends and flattened. PLEASE NOTE! Metal other than packaging is deposited in the porcelain & ceramics container or handed in at a Recycling Centre (ÄVC).	GLASS PACKAGING CLEAR GLASS Bottles and jars. Place metal caps, bottle tops and lids in metal packaging. PLEASE NOTE! Glass other than packaging (for example, window glass, drinking glasses and coffee pots) is placed in the Porcelain & ceramics container or handed in at a Recycling Centre (ÄVC).	GLASS PACKAGING COLOURED GLASS Bottles and jars. Place metal caps, bottle tops and lids in metal packaging. PLEASE NOTE! Glass other than packaging (for example, window glass, drinking glasses and coffee pots) is placed in the Porcelain & ceramics container or handed in at a Recycling Centre (ÄVC).
PLASTIC PACKAGING is recycled to make loading pallets, furniture components, noise barriers and washing-up brushes.	PACKAGING MADE OF CARD AND PAPER is recycled to make new packaging or cardboard.	METAL PACKAGING that is melted down and re-used saves 75% of the energy needed to produce new packaging from iron ore.	GLASS is turned into new glass products or insulation materials.	GLASS is turned into new glass products or insulation materials.

This is what to do with your other waste

We can collect bulky waste items, electrical waste, hazardous waste and porcelain & ceramics waste from your property up to 4 times a year. Please order collection at least one week before the scheduled collection date, online via www.ograb.se or by phoning Customer Service on 044-709 59 90.

Bulky waste

Domestic waste that is too bulky to fit into the bins. This covers only the kind of large domestic items that people take with them when moving house.

No interior fittings (doors, kitchen cabinets, etc.) or car parts.

Collected from your home.

Order collection at least one week before the scheduled collection date. Maximum 10 items per collection.

Bulky waste must not be packed in sacks.

Arrange with your janitor/facility manager where to leave items for collection. It is important that you inform us of the location of items when you order waste collection.

Hand in at a staffed Recycling Centre (ÅVC).

Electrical waste

TV, radio, computer, household appliances, refrigerator, freezer, lightbulbs, etc.

Collected from your home.

Order collection online or by phone (as described above).

Arrange with your janitor/facility manager where to leave items for collection. It is important that you inform us of the location of items when you order waste collection. Small electrical items such as shavers, hair dryers, mobile phones, fluorescent tubes, lightbulbs and small batteries may be placed in the relevant container.

Hand in at a staffed Recycling Centre (ÅVC).

Hazardous waste

Oil, paint, solvents, empty spray cans, etc.

Hand in at a staffed Recycling Centre (ÅVC). The contents of bottles and jars, etc. must be clearly labelled. If you are uncertain about anything, contact Recycling Centre staff.

Textiles

Clothing, face-cloths, towels, bedding, nylon stockings, etc.

Deposit in containers located in urban areas, **or hand in** at a staffed Recycling Centre (ÅVC). Thanks to technical advances it is now possible to recover fibres from worn textiles. Clothes, shoes and accessories that can be re-used are sent to people in need in other countries, or sold to generate income for aid organisations.

By depositing your old textile products in the green containers, you are also doing the environment a good turn.

Recycling textiles also saves us the cost of incinerating them.

Go to www.ograb.se to find out where our Textile containers are located.

Medicines

Medicines and hypodermic needles.

Hand in at a chemist's.

Medicines: place medicines in a transparent plastic bag or one of the special medicine waste bags available from the chemist's. Chemists do not accept discarded medical thermometers or used batteries.

Hypodermic needles: return these in the special container available free of charge from the chemist's. It is prohibited to dispose of hypodermic needles as residual waste. However, once the needle has been removed, the syringe itself may be placed in residual waste. The container for hypodermic needles is returned to the chemist's when full.

What goes where?

A - C

A	
acetone	hazardous waste! (p.4)
acid	hazardous waste! (p.4)
adhesive	hazardous waste! (p.4)
advertising mail	newspapers
aluminium can (deposit)	redeem in store
aluminium can (no deposit)	metal packaging
aluminium foil	metal packaging
aluminium tray	metal packaging
ammonia	hazardous waste! (p.4)
ammunition	Contact the Police
amplifier	electrical waste (p.4)
asbestos (packaged) < 100 kg	hazardous waste! to Kattarp
ashes (packaged)	residual waste
B	
baby stroller	bulky waste
baby's pacifier/dummy	residual waste
bag (cloth)	textiles (p.4)
bag-in-box (box)	paper packaging
bag-in-box (plastic liner)	plastic packaging
baking paper	residual waste
baking tray (foil)	metal packaging
baking tray (paper)	residual waste
banana skin	food waste
band aid	residual waste
bandage	residual waste
bathtub	bulky waste (p.4)
battery	hazardous waste! (p.4)
battery charger	electrical waste (p.4)
beer can	redeem deposit in store
beer can (no deposit)	metal packaging
beer crate	redeem deposit in store
bicycle	bulky waste (p.4)
binder	residual waste
blister pack > 50% plastic	plastic packaging
blister pack >50% metal	metal packaging
bones	food waste
book (hard cover)	residual waste
book (paperback)	newspapers
boots (usable)	textiles (p.4)
boots (worn out)	residual waste
bottle top (metal)	metal packaging
bottle top (plastic)	plastic packaging
bottles (glass)	glass packaging
bread	food waste
brush	residual waste
brush cleaner	hazardous waste! (p.4)
bulb	electrical waste (p.4)

C	
calculator	electrical waste (p.4)
caller ID	electrical waste (p.4)
camera	electrical waste (p.4)
can	metal packaging
candle	residual waste
car battery	hazardous waste! (ÅVC)
car radio	electrical waste (p.4)
car tyre	return to tyre dealer
car wax	hazardous waste! (p.4)
cardboard	paper packaging
cassette tape	residual waste
cat sand (packed)	residual waste
catalogue	newspapers
catheter bag (empty)	residual waste
caustic soda	hazardous waste! (p.4)
CD	residual waste
CD case	residual waste
CD player	electrical waste (p.4)
cellophane	plastic packaging
ceramics	porcelain & ceramics
charcoal briquettes (cooled, packed)	residual waste
chewing gum	residual waste
chocolate wrapper (paper)	paper packaging
chocolate wrapper (plastic)	plastic packaging
chopping board (plastic)	residual waste
Christmas tree (plastic)	bulky waste (p.4)
cigarette lighter	residual waste
cigarette packet	paper packaging
cigarette stump	residual waste
clay pot	porcelain & ceramics
cleaning cloth	residual waste
clock (battery or electric)	electrical waste (p.4)
clock radio	electrical waste (p.4)
cloth (textile)	textiles (p.4)
clothes (usable)	textiles (p.4)
clothes (worn out)	textiles (p.4)
clothes hanger	residual waste
clothes peg	residual waste
coffee cup/saucer	porcelain & ceramics
coffee filter + grounds	food waste
coffee machine	electrical waste (p.4)
colostomy bag	residual waste
computer	electrical waste (p.4)
computer monitor	electrical waste (p.4)
cooking oil	oil recycling (ÅVC)
cordial bottle (glass)	glass packaging
cordial bottle (plastic)	plastic packaging

What goes where? C - J

cork (natural)	residual waste
cork (plastic)	plastic packaging
corn flakes packet	paper packaging
corrugated cardboard	paper packaging
corrugated card (large amount)	ÅVC
cosmetics	residual waste
cotton buds	residual waste
cushion (large)	bulky waste (p.4)
cushion (small)	residual waste
cutlery (metal)	porcelain & ceramics
cutlery (plastic)	residual waste
cycle tyre	residual waste
D	
deep fryer	electrical waste (p.4)
detergent box (card)	paper packaging
detergent drum (plastic)	plastic packaging
detergent refill	plastic packaging
diaper	residual waste
dimmer switch	electrical waste (p.4)
dishcloth	residual waste
dishwasher	electrical waste (p.4)
disposable mug/plate (paper)	paper packaging
disposable plate (plastic) soiled	residual waste
disposable razor	residual waste
drinking glass	porcelain & ceramics
duster	residual waste
DVD	residual waste
DVD player	electrical waste (p.4)
E	
egg boiler	electrical waste (p.4)
egg box	paper packaging
eggshell	food waste
electric cable	electrical waste (p.4)
electric curler iron	electrical waste (p.4)
electric drill	electrical waste (p.4)
electric grill	electrical waste (p.4)
electric hob	electrical waste (p.4)
electric iron	electrical waste (p.4)
electric kettle	electrical waste (p.4)
electric mower	electrical waste (p.4)
electric shaver	electrical waste (p.4)
electric toaster	electrical waste (p.4)
envelope	residual waste
eraser	residual waste
eternit (fibre cement)	hazardous waste! to Kattarp
extruded polystyrene (building)	residual waste
extruded polystyrene (packaging)	plastic packaging
F	
face-cloth	residual waste
fan	electrical waste (p.4)
fat (foodstuff)	oil recycling (ÅVC)

feeding bottle	residual waste
fire extinguisher	hazardous waste! (p.4)
fireworks (used)	residual waste
fish remains	food waste
fitted carpet	bulky waste (p.4)
flour bag	paper packaging
flowerpot (clay/ceramic)	porcelain & ceramics
fluorescent tube	electrical waste (p.4)
folder	residual waste
food leftovers	food waste
food mixer	electrical waste (p.4)
food processor	electrical waste (p.4)
fountain pen	residual waste
freezer	electrical waste (p.4)
fridge	electrical waste (p.4)
fruit	food waste
frying oil	oil recycling (ÅVC)
frying pan	porcelain & ceramics
furniture	bulky waste (p.4)
fuse	porcelain & ceramics
G	
garden swing seat	bulky waste (p.4)
gift wrap	paper packaging
glass (broken)	porcelain & ceramics
glass bottle	glass packaging
glass jar	glass packaging
glue	hazardous waste! (p.4)
glycol	hazardous waste! (p.4)
grass cuttings	garden waste
gravel (small amount)	porcelain & ceramics
grill	bulky waste (p.4)
gypsum	porcelain & ceramics (ÅVC)
H	
hair dryer	electrical waste (p.4)
halogen bulb	electrical waste (p.4)
handbag	textiles (p.4)
handkerchief	textiles (p.4)
house plant (without pot)	food waste
household utensils (metal)	porcelain & ceramics
household utensils (plastic/wood)	residual waste
hypodermic syringe (in container)	medicines (p.4)
I	
impregnated timber	hazardous waste! to Kattarp
inhaler	residual waste
ink cartridge (for printer)	residual waste
insecticide	hazardous waste! (p.4)
insulation materials	porcelain & ceramics (ÅVC)
J	
jerry can (plastic), cork removed	plastic packaging
juice packet	paper packaging

K	
ketchup bottle (glass)	glass packaging
ketchup bottle (plastic)	plastic packaging
kitchen roll	residual waste
knife (metal)	porcelain & ceramics
L	
lamp (small)	electrical waste (p.4)
leather	residual waste
leaves	garden waste
leca (clay) pebbles	residual waste
lightbulb	electrical waste (p.4)
light fitting	electrical waste (p.4)
lighter fluid	hazardous waste! (p.4)
loudspeaker	electrical waste (p.4)
low-energy bulb	electrical waste (p.4)
M	
margarine packaging(plastic)	plastic packaging
margarine wrapper (paper)	paper packaging
mattress	bulky waste (p.4)
meat tray (paper)	food waste
meat tray (plastic)	plastic packaging
meat tray (styrofoam)	plastic packaging
medical thermometer (digital)	electrical waste (p.4)
medical thermometer (mercury)	hazardous waste! (p.4)
medicaments	medicines (p.4)
microwave oven	electrical waste (p.4)
milk packet	paper packaging
mirror glass	porcelain & ceramics (AVC)
mobile phone	electrical waste (p.4)
motor oil	hazardous waste! (p.4)
mower (hand-operated)	bulky waste (p.4)
N	
nail varnish	hazardous waste! (p.4)
nails	porcelain & ceramics
napkin	residual waste
nappy	residual waste
newspaper	newspapers
note pad	residual waste
nylon stocking	textiles (p.4)
O	
oasis (floral) block	residual waste
oil (motor / gearbox)	hazardous waste! (p.4)
oil filter	hazardous waste! (p.4)
orange peel	food waste
outdoor torch	metal packaging
P	
paint	hazardous waste! (p.4)
paint tin (metal – empty)	metal packaging
paint tin (plastic – empty)	plastic packaging
pan	porcelain & ceramics
paper bag	paper packaging

paper plate (soiled)	residual waste
paper plate/mug (clean)	paper packaging
paper roll	paper packaging
paper towel	residual waste
paperback book	newspapers
pen	residual waste
perfume	hazardous waste! (p.4)
pesticide	hazardous waste! (p.4)
pet waste bag (sealed)	residual waste
petrol	hazardous waste! (p.4)
photocopier	electrical waste (p.4)
photographs	residual waste
plant compost (small amount)	food waste
plant pot (clay or ceramic)	porcelain & ceramics
plant pot (plastic)	residual waste
plant pot (plastic inner pot)	plastic packaging
plant pot (plastic outer pot)	residual waste
plastic bag	plastic packaging
plastic bottle (not PET)	plastic packaging
plastic bottle (PET)	redeem deposit in store
plastic foil/cling film	plastic packaging
plastic mug (disposable)	plastic packaging
plastic packaging	plastic packaging
plate (ceramic)	porcelain & ceramics
porcelain	porcelain & ceramics
potato chip bag (paper)	paper packaging
potato chip bag (plastic)	plastic packaging
potato chip tube (Pringles)	paper packaging
pots	porcelain & ceramics
pram	bulky waste
printer for PC	electrical waste (p.4)
putty	hazardous waste! (p.4)
Q	
quarry tiles (small amount)	porcelain & ceramics
quilt	textiles (p.4)
R	
radiator (electric)	electrical waste (p.4)
radio	electrical waste (p.4)
rainwear	textiles (p.4)
rat poison	hazardous waste! (p.4)
razor (metal)	porcelain & ceramics
razor blade	porcelain & ceramics
rechargeable equipment	electrical waste (p.4)
record player	electrical waste (p.4)
refrigerator	electrical waste (p.4)
remote control	electrical waste (p.4)
rockets (used fireworks)	residual waste
rubber items	residual waste
rug (large)	bulky waste (p.4)
rug (small)	textiles (p.4)

What goes where? S - Y

S	
sanitary towel	residual waste
satellite dish antenna	electrical waste (p.4)
scissors	porcelain & ceramics
screws	porcelain & ceramics
seafood (packed in newspaper)	food waste
serviette	residual waste
sewing machine	electrical waste (p.4)
shampoo bottle (top removed)	residual waste
shoes (usable)	textiles (p.4)
shoes (worn out)	residual waste
shower curtain	residual waste
skin cream, etc.	residual waste
smoke alarm	electrical waste (p.4)
snuff	food waste
snuff box (paper)	paper packaging
snuff box (plastic)	plastic packaging
soil (small amount)	food waste
solvent	hazardous waste! (p.4)
soot (packaged)	residual waste
spectacles	porcelain & ceramics
sponge	residual waste
spray bottle, plastic (empty)	plastic packaging
spray can with contents	hazardous waste! (p.4)
spray can, metal (empty)	hazardous waste! (p.4)
stain remover	hazardous waste! (p.4)
steel wool	porcelain & ceramics
